

STORYBOARD

GOAL 15, GROUP 06

Scene 1

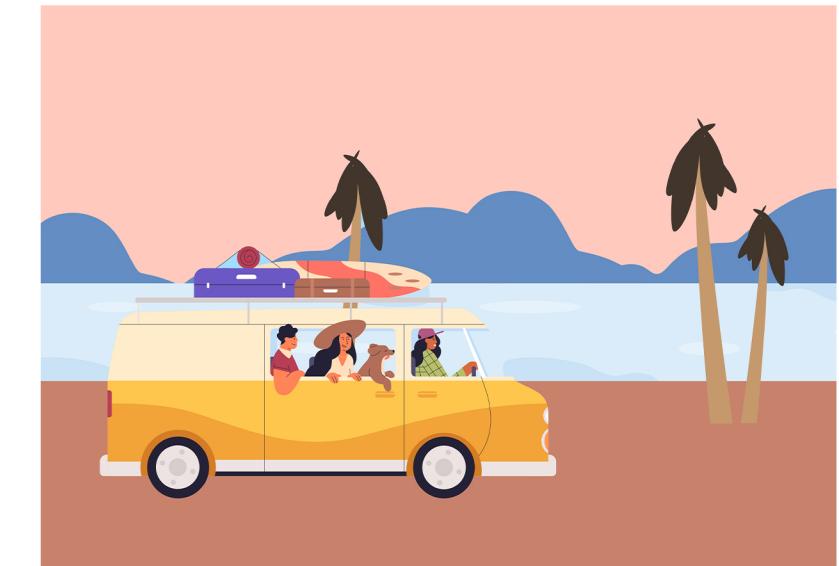

Get to know the characters and where they are going. Here we will introduce you for the theme and the reason behind this site.

Scene 2

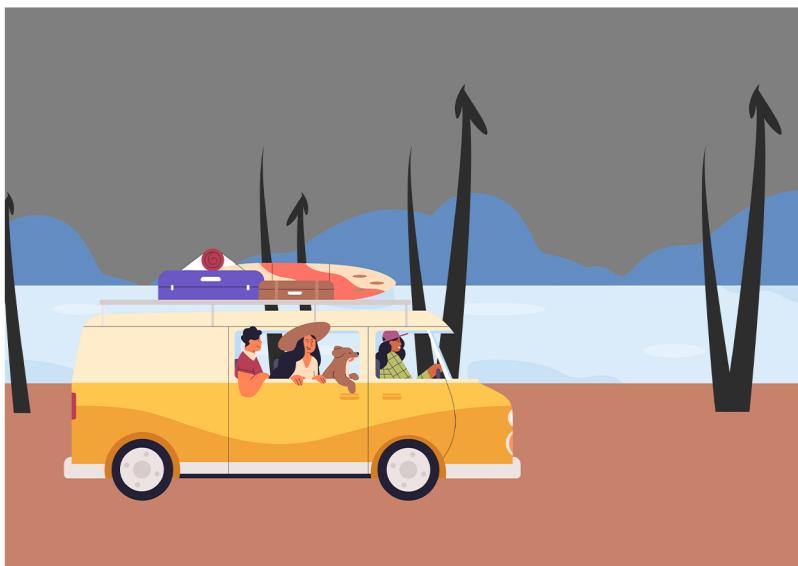

Here there are animals and plant life. The animals are doing well, life on land is good for all types of life.

Scene 3

The animals disappear, the plants are dying, and it has become warmer in the air. Our tourists don't notice it because they have air conditioning.

Scene 4

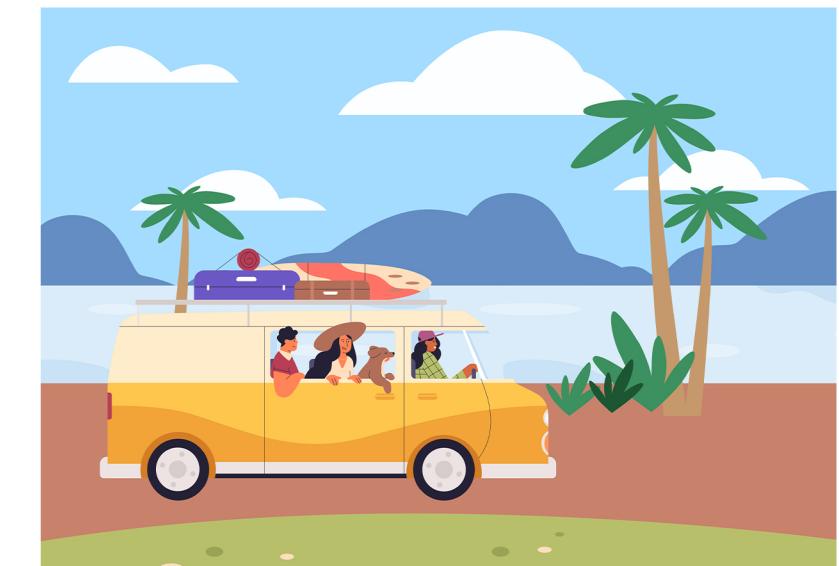

The temperature rose so much that a fire started. Now all plant life has burned down, and nature is destroyed for all types of life.

Scene 5

People clean up after the fire and have left rubbish in the forest.

Scene 6

Our characters have reached their destination, where it is still clean, lush and beautiful. Have they learned anything along the way? Do you want to think about this when they are on vacation?
